

## FLYING ALLIES OF AUTO CLUB UP IN THE AIR

Aeronautic Society's Wrath  
Roused By Privileges  
Given to Rival.

CONTROL "AIR SPORTS."

Aero Club Makes Contract  
and Grabs Power From  
Older Organization.

The Aeronautic Society is up in the air. Unless all aviation signs fail the Aero Club will be there, too, in a few hours and the Automobile Club of America will not be far behind, though aerial navigation was never contemplated by its founders. And bitter words hover about all three in clouds like gnats.

Secretary Tandy, of the Aeronautic Society, says, for instance:

"This is all due to a misapprehension of the facts on the part of President Gary and the majority of the Board of Governors of the Automobile Club of America. It is due to the machinations of Courtlandt F. Bishop."

"Do you mean to charge that Mr. Bishop, who is a member of the Aero Club, has been guilty of the Aero Club into giving undue privilege and powers to the Aero Club to the disadvantage of the Aeronautic Society?"

"What I have said I have said," said Mr. Tandy as one who would die for the truth, but must still be discreet.

Really No Criticism.

George F. Chamberlin, a governor of the Automobile Club of America, and also a member of its Aviation Committee, which was supposed to have charge of all alliances between the Automobile Club and air navigating associations, was quoted this morning as saying that the very advantageous terms of alliance given to the Aero Club were made without his knowledge and consent. He is a member of both the Aero and Automobile clubs, but his first love is for the Aeronautic Society. He was described as saying what he said with some heat. But to-day, while admitting that the contract between the Aero Club and the Automobile Club was a surprise and a shock to him, he begged everybody to believe that he had not meant to criticize anybody publicly, nor anything. Not at any time.

Dave H. Morris, who is Mr. Chamberlin's fellow member of the Aviation Committee and who is under fire by the Aeronautic party because he was present when the contract was signed and thereby allowed President Gary to believe the contract had the sanction of the Aviation Committee, declined to get into the controversy at all.

Morris is Diplomatic.

"Mr. Chamberlin is a very dear friend," said Mr. Morris with a very suave smile. "I really cannot have a controversy with so dear a friend. Besides, for me to answer your questions would be for me to discuss club matters, something I never do."

Lee S. Burridge, President of the Aeronautic Society, was apparently in-

terested and had intense feelings on the subject. But he did hope there would be no outside notoriety attaching to club matters.

"I think the whole difficulty," he said, "will have been found to have arisen from intensely personal causes. It would be inadvisable for me to say more."

A member of the Aeronautic Society and the Automobile Club said to-day that the gist of the criticism of Mr. Bishop was due to a feeling that he took advantage of Mr. Morris's presence at a motorboat committee meeting on Friday to have the aviation matter brought up then, and that with this report, signed by Mr. Morris, the contract was brought before Judge Gary for signature without Judge Gary understanding that it was not a report of the aviation committee.

Mr. Bishop's View.  
Courtlandt F. Bishop said: "I do not see that the internal dissensions or reports of them in the Automobile Club are proper subjects for discussion by an officer of the Aero Club. There is nothing to the matter. A special committee of the Automobile Club was appointed to confer with us. On it were Mr. Morris and Mr. Morrell. After the preliminaries were arranged Judge Gary and I signed the contract, and that seems to me to end the matter."

This is what the fuss is all about: The Aeronautic Society is jealous of the privileges and prestige conferred on the Aero Club by the Automobile Club. The Aeronautic Society is older than the Aero Club; it has long had an affiliation contract with the Automobile Club by which it was entitled to the use of the club-house.

And now comes the Aero Club and makes a contract on Saturday with the Automobile Club which covers more privileges than those enjoyed by the older aviation society and also recognizes the Aero Club as the Automobile Club's aeronautic section and confers on it the supreme power for the regulation of aviation contests in this country hereafter.

Other members of the clubs declined to discuss the matter. They seem to regard it as one loaded with great explosive possibilities, tending to put all three organizations even higher in the air than it is the avowed objects of some of the members to go.

Notwithstanding all the forces working for harmony, it is still asserted by members of both the Aeronautic Society and the Automobile Club that the whole contract proceeding will be called up for review at the next meeting of the Automobile Club.

## WOMAN FIRST PATIENT IN AUTO AMBULANCE

New Machine Is Put Into Service at Bellevue Hospital.

A new auto-ambulance, the first Bellevue Hospital has had, was installed at that institution to-day for active service and had been ready for work only a short time when it was taken out on its first run.

Dr. Newman, ambulance surgeon, was the first surgeon to ride in the new machine. It is painted black and without the red cross or other usual ambulance marks. The machine is equipped with many conveniences for carrying extra supplies, instruments, stretchers, etc., for an emergency. The entire inside is given over to the patient, if necessary, and ample room is provided for doctors and the chauffeur. Two chauffeurs have been employed at a salary of \$1,200 each to run the machine. They will work on shifts of twelve hours each.

The first patient to ride in the ambulance was Annie Asenovitz, fifty-three, of No. 120 Lewis street. She went to the Hebrew Charities Building at Twenty-first street and Second avenue to-day, and is said to have been acting in a "queer" manner.

## MYSTERIOUS MAN IN SECRET VISITS WOMAN KIDNAPPER

Sheriff, Fearing Mrs. Boyle Is Plotting Escape From Jail, Hunts for Evidence.

MERCER, Pa., March 30.—Although efforts have been made to conceal the fact, it was learned to-day that Mrs. Boyle received a visit from a man at the Mercer jail yesterday morning about whom there is much mystery. The visit was carefully planned and was made when all the authorities and newspapermen were en route to Sharon for the hearing of the woman's husband, James H. Boyle.

Mrs. Chess, wife of the Mercer County sheriff, admitted the man to Mrs. Boyle's presence after Attorney Stranahan, Boyle's counsel, told her that the man was Mrs. Boyle's brother.

The woman also says her visitor was her brother, but when Sheriff Chess returned from Sharon with Boyle he expressed the opinion that the visitor may have been an accomplice of the woman. Ex-Judge Miller and Attorney Stranahan, Boyle's counsel, stated to-day they believe the man was Mrs. Boyle's brother, but refuse to enter into a discussion of the matter.

In any event, the visit was apparently carefully arranged, and as a result was made at a time when, with the exception of the Sheriff's wife, there was no one around the jail to see what the man looked like, question him or discover anything that would lead to the real identity of Mrs. Boyle.

The man did not register at any Mercer hotel. He did not eat a meal in Mercer. His coming, his going and his motive for the visit are shrouded in mystery.

Mrs. Boyle will not be taken to Sharon for a hearing on the charge of kidnapping Willie Waltra, Attorney Cochran, counsel for Mr. Waltra, arrived here shortly after noon from Sharon and stated it had been arranged to give the woman an opportunity to waive a hearing in jail here by her signing a legal paper to the effect she desired to waive a hearing without going to Sharon. Attorney Cochran said every effort would be made to obtain a conviction in the woman's case, but if it failed she would be turned over to the Cleveland authorities, she having been indicted in that city on a charge of blackmail. He further asserted there was no intention of eliminating the woman from the case, and detectives will continue at work up to the time of trial searching for evidence against her.

"The woman is as much a mystery now as at any time since she was arrested," declared Attorney Cochran. "Absolutely nothing can be learned concerning her identity."

He says detectives have run down the McDermott theory and found that she was not connected with the Chicago family, nor does the family, he says, know her.

In some circles it is believed the prosecution is holding back the proceedings against Mrs. Boyle until her identity is established. Every effort has been made up to late this afternoon to get some trace of the man who called on Mrs. Boyle, but the search has been futile.

Ex-Judge Miller, counsel for Boyle, who characterized the Sharon hearings as unnecessary, and looks upon the "galavanting of the country with the prisoners" as a "piece of grandstand play."

The people residing in the rural districts are raising an objection to the expenses incurred in bringing the Boyles from Cleveland to Mercer. They object to paying for the use of a private Pullman car, and when the bill is presented to the County Commissioners delegates will be present from all the rural districts to protest against its payment.

## WOMAN CHEERS FIST BATTLE IN CROWDED COURT

Mrs. Mundy's Spouse Avenges Lost Plumes When Judge Discharges Lupino.

There was a free-for-all fight in Bedford avenue police court, Brooklyn, to-day after Magistrate Illegitim had discharged Michael Lupino, who had been arraigned on a charge of stealing plumes worth \$50 from Mrs. Mabel Mundy, wife of George Mundy, a wrestler and professional strong man of some fame in his community. As a result of the battle Mundy was arrested and held in \$2,000 bail on a charge of assaulting Lupino.

Mrs. Mundy went into Lupino's little shoemaking and general tinkering shop at No. 180 South Fourth street, Williamsburg, on March 25 to have an umbrella fixed. She swore that she left three valuable plumes in the place, did not miss them until she got outside and could not recover them when she got back. When the case was called to-day Mundy and about a score of his friends were in court.

No evidence was produced to corroborate Mrs. Mundy's story. Lupino denied taking the plumes and was corroborated by his partner, Michael Scaddo, who swore that Mrs. Mundy left nothing in the shop but her decrepit umbrella. The Court told Lupino to go home.

As Lupino was passing through the court-room on the way to the door Mundy jumped on him, threw him down and proceeded to pound him most vigorously. A couple of Mundy's friends followed the same line of procedure with Scaddo.

Mrs. Mundy shouted encouraging words to her husband, who was rapidly reducing Lupino's features to the resemblance of a New England dinner. The other women in the court rushed for the door. Sergeant Boyle and the court squad and Detectives Money and Bryan sailed into the fray and smashed right and left among Mundy's friends.

Finally they dragged Mundy off Lupino. During the operation Mundy's friends fled. Lupino then preferred a charge of felonious assault against Mundy and asked for a police guard for himself and his place of business.

## Fat and the Directorate.

The coming season will be a hard one for fat ladies. The Directorate mode indorsers already lift scornful eyebrows at such a plebeianism as bulky hips. Fat, in short, wherever it may be deposited, has merited great condemnation and is anathema. In Chicagoese, it's got to go.

Many minds—many methods. 1. Exercise. 2. Dieting. 3. Worrying. 4. Tight lacing. 5. Marmola. All these are suggested, but none should be adopted. For instance, 1 and 2 are not easy, while 3 and 4 are not hygienic. Thus we so them on one side and cons. Marmola.

What is it? A harmless powder obtainable of any good druggist, when mixed with 12 ounce Fluid Extract Casara Aromatic and 12 ounce Peppermint Water and taken after meals and at bedtime, will, without causing any inner disturbances or outward flesh writhings, reduce the excess flesh, proportionately and uniformly, to 16 ounces a day.
